premium machines

Our top end premium and retro offerings make a statement and provide state-of-the-art technology for baristas . Hire includes everything included in a standard booking, plus a premium electronic Mazzer grinder. These machines can also be booked with a coffee cart - see our website or instagram for more options. Limited availability so advance booking is recommended.

la marzocco linea classic

A mainstay of Melbourne's cafe scene. Looks great in any setting.

Linea Classic 2 group available in brushed chrome or white; Linea Classic 1 group** available in brushed chrome. Linea PB 2 group* also available in polished chrome.

LM Linea 1 grp specs: L 490; D 560; H 450; 10 amp power
LM Linea 2 grp specs: L 690; D 560; H 450; 20 amp power

la marzocco FB80

Recognised for its thermal stability and capacity to maintain consistency shot after shot. Looks slick paired with the timber coffee cart. FB80 2 group available in white only.

LM FB80 2 grp specs: L 750; D 620; H 480; 20 amp power

expobar ruggero**

Shares its fundamentals with the Expobar Megacrem 2 (standard compact machine) but with a premium finish. Ruggero 2 group available in black or white. Runs on standard 10 amp power.

Expobar Ruggero 2 grp specs: L 500; D 600; H 505; 10 amp power

la marzocco GS3**

A small unit but punches well above its weight, with all of the technology you'd expect from La Marzocco and requires only standard 10 amp power. GS3 1 group available in polished chrome/black

LM GS3 1 grp specs: L 400; D 530; H 350; 10 amp power

* State-of-the-art equipment with additional technical features for advanced baristas
** Compact option is a smaller machine suitable for events of less than 100 pax or where only standard 10 amp power is available.
